General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Paisley: Industry specific software package

II.1.2) Main CPV code

- 48100000 - Industry specific software package

II.1.3) Type of contract

Supplies

II.1.4) Short description

Offers are sought in connection with the establishment of a collaborative arrangement for the provision of a social care case management system solution.

Under the resultant framework suppliers will be required to provide software and related ancillary services, to include configuration, installation and commissioning of systems, ongoing support and maintenance.

The solution will include functionality to support case management for adults, children, criminal justice and finance in Scotland. A key part of the resultant framework agreement will be to further accelerate the development of open systems, appropriate data sharing and the interoperability of IT systems so that services can be delivered efficiently and respond more flexibly to the needs of citizens and businesses. The solution offered must comply with applicable Law and Standards, and must be GDPR compliant.

II.1.5) Estimated total value

Value excluding VAT: £28,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

On-premise Installation (Council Datacentre or Council's Third Party Cloud-based Datacentre)

Lot No

1

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems
- 48510000 - Communication software package

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

A software solution to be installed in the council datacentre or a council's third party cloud-based datacentre that can deliver a social work care case management system including a self-directed support capability for citizens to improve the impact that care and support has by helping them to choose and control what type of social care services they get, when and where they get them, and who provides them. In conjunction with this, the solutions offered will support the digital capability for health and social care professionals involved in the direct delivery of care – to be able safely and securely access, update and share relevant information about the individual being cared for. It will encourage the use of decision support tools and services to support frontline practice, self-management and shared decision making, whilst establishing and implementing the standards required to deliver interoperability and appropriate information sharing across different health and care systems.

II.2.5) Award criteria

Cost criterion - Name: Technical / Weighting: 70

Cost criterion - Name: Price / Weighting: 30
